

Social Media Policy

Guidelines for people posting content

Use common sense and good judgement. Ask for help if needed.

1. Remember you're an ambassador - both for our Lord Jesus and for Cromer Church.
2. Remember it's permanent.
3. Pause and reflect before posting - is this truthful and accurate, is it kind and respectful, is it confidential, could it harm anyone? If you are unsure at all, it's always best to err on the side of caution and not post it.
4. Keep safeguarding in mind - particularly for children and vulnerable adults. Don't share any personal information. Be extra careful with pictures and videos. Don't enter into 1:1 private online communication.
5. If you see something online that concerns you, report it.
6. Be mindful of copyright and intellectual property rights. Obtain necessary permission if required.
7. Don't post personal content on official channels.
8. Treat all users with respect and dignity, regardless of their beliefs or opinions. Refrain from offering personal opinions.
9. All users of social media are ultimately responsible for their own online behaviour.
